

MASTER OF SCIENCE IN KINESIOLOGY

2027 SUPPLEMENTAL APPLICATION

The Master of Science in Kinesiology (MSc) at Nipissing University is a research-intensive, thesis-based graduate program for students interested in advancing knowledge of human movement, health promotion, and applied neuroscience. Areas of focus include outdoor physical activity education, physical activity promotion in Indigenous populations, and sport management, alongside research in biomechanics, ergonomics, exercise physiology, and sport psychology. Students work with expert faculty and access well-equipped laboratories while developing advanced research and analytical skills.

The MSc Kin program operates using a mentor model. The benefits of a mentor model are numerous, including clarification of research and other funding support at the time of application and focused supervision from the time of registration. The MSc Kin program prepares graduates for further research training (e.g., doctoral, and post-doctoral studies) and a broad range of careers in Kinesiology and related fields, such as medicine, public health, rehabilitation, occupational health and safety, sport, fitness, education, government, and industry.
